ROBBED OF MONEY; HURLED UNDER CARS

Fate of White Man at Rockport—Riding Freight.

Negro Crooks Try to Have Victim Crushed by Railway Train.

Rockport, Ky., Aug. 24.—After a desperate battle with negro crooks, who had robbed him of all the money he possessed an unknown man claiming Pittsburg, Pa., as his home, was thrown beneath the cars of a rapidly moving Illinois Central freight train here at an early hour this morning by the negroes who sought to cover up the evidence of their guilt beneath the grinding wheels of the train.

Instead of being crushed to pieces, the man threw himself from the rails, but not in time to save his leg, which was served by the cars.

The man boarded the train at Paducah with the intention of riding to Louisville where he intended to catch a train to Cincinnati.

When the train reached Central City, the negroes got on and asked the white man for a match. With the matches he pulled out a roll of bills which caught the eyes of the crooks.

When the train had reached this city the negroes attacked the man, who fought desperately to save his life and money. He fired at the negroes with a revolver and one of them fell, while the others closed in on the white man.

Using his revolver as a club, he fought the crooks until one of them struck him on the head with a black-jack. This dazed him and the negroes picked him up and tried to throw him between the cars after they had secured all his money, which amounted to about \$40.

Luckily, he fell sideways and his body fell outside the tracks. His leg was cut off in two places.

The man was brought to the Illinois Central depot here, and was later rushed to a hospital in Louisville. The negroes stayed on the train, and are said to have been headed for Louisville. There were seven of them, and they are believed to have been escaped convicts.

How bad the one that was shot by the white man is wounded is not known but it is thought that he was badly hurt.

May Hire Rigs to Take Children to School.

Frankfort, Ky., Aug. 24.—Judge O'Rear of the court of appeals today decided that it is legal for the county board of education to spend money under the Sullivan school law to carry children to and from school in districts where the schools have been consolidated. Judge O'Rear refused to grant an injunction prayed against the county board of that county, which is spending the money hauling children to school at Lone Oak where several of the county schools have been consolidated.

Joe Blackburn to come Home.

Frankfort, Ky., Aug. 24.—Confirmation of the story from Washington that Gov. J. C. S. Blackburn will resign his place in the Panama canal zone to return to Woodford county and spend the remainder of his days quietly on his farm, was had here today when James Blackburn, Gov. Blackburn's nephew, said it was a fact that Gov. Blackburn will come to Kentucky this summer. Gov. Blackburn is tired of public life and wants to get out. Mr. Blackburn said today that his uncle will leave Panama this summer and will never engage in public life again.

Gov. Blackburn has a fine farm of 160 acres in Woodford county and he expects to make a specialty of raising Shetland ponies. He will bring with him from Panama a stallion of the breed used down there. It is really an Arabian horse and is said to be very fine for breeding purposes.

Gov. Blackburn has played an important part in many big events in

public life in Kentucky. He will be welcomed to his old home in Woodford county with great rejoicing, for no man ever lived there who was more popular.

Mrs. Youtsey Sues for Divorce.

Winchester, Ky., Aug. 24.—Mrs. Sarah Youtsey has filed suit for a divorce in the Clark Circuit Court through her attorney, John M. Stevenson, against Henry E. Youtsey, who is serving a life sentence for complicity in the murder of Gov. Goebel.

The petition is brief, the grounds given being conviction of a felony and living apart for five years. The papers were sent to Frankfort to-day to be served upon Youtsey and the divorce will be granted without opposition.

Butler County Man Owes \$8,698.26.

A petition has been filed in the United States court at Owensboro by creditors of Clifton E. Childress, Butler county, asking that he be adjudged a bankrupt. The petitioning creditors are the Belknap Hardware company, Robinson Brothers and company, S. Shapinsky and company of Louisville. The creditors claim that the defendant owes debts to the amount of \$8,698.26 and that his assets amount to only \$3,700. Childress was a merchant at Reedville, Butler county. The Kentucky Buggy company is the only Owensboro creditor, having a claim of \$117. The Leitchfield Clothing company has a bill against the defendant for \$135.25. The other claims are scattered among various firms in the country.

THE HUSBAND WAS TURNED LOOSE

Examining Court Declined to Hold Moore on Charge of Murdering His Wifer

Central City, Ky., August 24.—A. L. Moore, husband of Mrs. Victoria Moore, who was arrested in connection with the death of his wife whose head was shot off on Wednesday of last week had his examining trial at Greenville on Thursday morning and brought a number of witnesses to prove that at the time his wife was killed he was in Hopkins county. He was dismissed for want of evidence. Gene Haley an 18-year-old boy who was also arrested in connection with the death of Mrs. Moore, now lies in the county jail at Greenville, awaiting his examining trial on Saturday. He refuses to talk. Several more arrests are expected to be made in the near future as it is known now that Mrs. Moore was robbed before being killed, she having drawn money from the bank on the day of her death, and it has been impossible to locate this money.

300,000 Acres Bring only \$1,137.

Nashville, Tenn., Aug. 24.—More than 300,000 acres of lands, located principally in the mountain counties of Tennessee, was sold at the courthouse door at noon to-day to Sam Cohen trustee, for \$1,137. The sale was made under a decree in Chancery in the action of J. C. Mayfield against the Southern Land and Trust Company. The company claims the land under original grants, much of it is occupied by squatters, who assert paramount titles, and the transfer made under authority of the Davidson Chancery Court will not amount to little to an estate in fee simple.

Bennett, John Tinsley and Leonard Tinsley and Mr. Sam Oglesby and wife.

TEXAS GIANTS TO GUARD TAFT

Four Men Assigned to Duty Have Combined Height of Over Twenty Five Feet.

El Paso, Tex.—When he arrives in El Paso, President Taft will be placed under the protection of one of the largest guards yet composed of the smallest number of men ever assigned to such a duty. All of the four men to be assigned from the El Paso police department as the President's personal body guard while in the city are more than six feet in height, their total heights being twenty-five feet three and one-half inches. They are native Texans, but long ago they discarded the broad brim hat commonly worn by peace officers as well as others in the early days, and to-day are attired in metropolitan uniforms.

"The Big Four," as they are called, are G. E. Fletcher, six feet three inches; C. H. Haynes, six feet three and a half inches; C. R. Tillman, six feet four inches, and R. B. Parsons, six feet five inches.

The four are quiet unassuming men, always to be relied upon when needed. R. B. Parsons, the tallest, has had experience in guarding Presidents as he was with President Roosevelt when he visited Sherman, Tex., in 1905.

At that time he walked ahead of the President's carriage and kept the way clear all the time while the President shook hands with Col. Cecil Lyone, National Republican Committeeman from Texas, who was in an invalid chair at the time.

Just before the President left Sherman he beckoned to his stalwart guards and said: "I want to thank you for the kindness you have shown me while in your city; for the attention you have given me and the manner in which you looked out for our welfare."

"Then the President took my hand," says Parsons, "and shook it until I thought I would have to go and see a doctor to learn if there were any bones broken. I have been used to handling some pretty strong men, but that grip of President Roosevelt's was about the strongest I have ever felt."—Philadelphia Inquirer.

New Capitol Dedication in November.

Frankfort, Ky., Aug. 24.—The Capitol Commissioners, the Frankfort Business Men's Club and representatives from surrounding cities, discussed the matter of dedication of the new Capitol at a meeting held here to-day. It was the consensus of opinion that the ceremonies should not be held until after the November election, so that all the newly-elected Legislators might be present.

Attorney General James Breathitt, will appoint a committee to select the orator for the occasion. The former State officials and the present Capitol Commissioners will act as a big Reception Committee on the occasion.

Fatal Result of Gasolin Boat Explosion.

Morgantown, Ky., Aug. 23.—Redford Turpin, Deputy Circuit Court Clerk of Warren county, was killed and several others hurt in a gasoline boat explosion. They were transferring gasoline from one boat to another when the explosion took place, about ten miles up Green river here. Turpin was taken to Massey's Springs Hotel some five or six miles up the river, where he died several hours later.

Conference at Lexington for Dis- cussion of Tuberculosis.

The joint Committee for the various Anti-Tuberculosis Associations in the State which have been engaged for the past few weeks in perfecting plans for the organization of a State Association, has announced that all preparatory arrangements have been made and a conference between representatives from each county in the State will be held late in September, at which definite action will be taken.

Two minor conferences have already been held between officers of the six Associations which have already been organized, and the September meeting was arranged in order that the needs of the State might be considered, from

the view point of the citizens of every City and County. The proposed meeting will be held in Lexington and a very interesting and instructive program has been arranged, it is said, which will cover a period of two days. Some of the best known specialists of the County will be invited and the number of public spirited laymen, as well as medical men, who have signified their intention of attending, has already insured a most interesting Convention.

Breckenridge Republicans Name Strong Ticket.

McQuady, Ky., Aug. 23.—The Republicans of Breckenridge, county met in a delegate convention in the court house in Hardinsburg to-day and nominated the following strong ticket, to be voted for at the November election. For Representative Dr. S. P. Parks for County Judge, L. L. Wagner, for County Attorney Jesse Eskridge, for county Clerk, Herbert M. Beard; for Sheriff, Dennis Sheeran, for School Superintendent, Andrew Duskil; for Jailor, W. J. Hall; for Assessor, Geo. Royalty; for Circuit Clerk, Clint Brody.

The Democrats met some time ago and put out a full ticket at present the Democrats hold the county offices. But Gov. Willson carried the county by a majority of 350 and last year Taft carried the county by 545, so the Republicans are going to make a vigorous campaign and carry the county by a Taft majority.

Arrangements are being made to vote on a stock law in this county in Nov. the Liverpool Magisterial District have asked for a vote and it is likely it will be voted on in all districts in the county.

GREEN RIVER DRAW BRIDGE COMPLETED

MINE FOREMEN WHO HOLD CERTIFICATES.

List Includes 357 Under the State Law of 1908.

Of these 96 are of the "Merit" Class—The Examination is Now On.

Lexington, Ky., Aug. 24.—The State Mine Inspector's office at Kentucky State University is constantly besieged with requests for information regarding mine foremen with certificates and has prepared a list of the 357 men holding certificates under the law of 1908, making it unlawful for mines in this State to employ foremen without certificates.

The certificates are in two classes however, one being called "service certificates" issued to mine foremen who had served as such for at least four years prior to March 20, 1909, and who were entitled under the law to receive certificate without examination. There are at present 261 such certificates held in Kentucky.

The other class comprises what is known as "merit certificates" given after practical examination as to ability and proficiency by the State board of examiners of mine foremen composed of the chief inspector of mines and two assistants. These are the men so particularly sought by coal operators a partial list of names of those holding this class of certificates with their addresses is given below from the lists prepared by Inspector Norwood, which contain the addresses of the entire 357.

The eleventh examination for mine foremen is now being conducted here and within the next week some additions will doubtless be made to the merit list. About twenty men are being examined. Foremen in this section holding merit certificates are:

William Abercrombie, Drakesboro, Muhlenberg county; W. J. Arnold, Greenville, J. M. Cardwell, Drakesboro, Muhlenberg county; O. P. Chatfield, Ashland, A. J. Mercer, Powderly, Muhlenberg county; D'Arcy Stewart Miller, Owensboro, Daviess county; Herbert Myers, Powderly, Muhlenberg county; Warner Rich, Central City, Muhlenberg county; George F. Sears, Central City, Muhlenberg county; J. Zeller, Taylor Mines, Ohio county; an Davis, Drakesboro, Muhlenberg county; Thos. L. Gaddis, McHenry Ohio county; Jas. Glancy, Central City, Muhlenberg county; T. V. Harvey, Hoffman, Ohio county; W. F. Harvey, Man, Ohio county; Chas. Henry, Central City, Muhlenberg county; n Jones, Simmons, Ohio county; R. Kerckek, Graham, Muhlenberg county; David Watkins, Mercer, Muhlenberg county; D. A. Woodburn, Central City, Muhlenberg county.

besides these there are many mine men in this district who by reason of their long years of experience are entitled to certificates without examination. Among whom are: on Jones, Andrew Thorpe, Georgetown, Ohio county.

The Vampire.

Our grandfathers in their little-boy's, reading to old-fashioned geographies of tropical forests and savage beasts, found descriptions of lions, tigers and crocodiles cheerfully exciting more than one shivering young man, at the dread moment of blowing out his chamber candle, wished he never heard of that uncanny and mnting monster, the vampire, which owed its victim to his very home bed and in the darkness silently led him to death as he slept.

Science has long modified this fearful tale. The vampire—the blood-sucking bat of South America—is not a huge hovering horror he was once depicted. He is but a little fellow, a aged, carnivorous mouse, and he does not stay his victims. But he does suck blood and is an extremely oublesome nuisance. The late Richard Spruce, in his "Note of a Botanist the Amazon and Andes," tells of experience with the creatures which ticularly infested his house at Sao oriel.

When I entered it," he relates, re were large patches of dried-up od on the floor, which had been wn from my predecessors by those ight bloodletters, and my two me re attacked the first night, one of m having wounds on the ends of r toes, three on one foot, one on y other. The same has happened y night since, and the bats do not p at the toes, but bite occasionally

on the legs, finger ends nose chin and forehead—especially of children. "As I wear stockings at night, wrap myself well in my blanket and cover my face with a handkerchief, I hither to escaped being bitten; but they often come to my hammock in search of a vulnerable point.

Surgeons boast of their painless operations nowadays, but the vampire beats them all. I have never met a person who was awakened by a vampire biting him, but several have had the vampire fasten on them when awake, and these confirm the account of the animal fanning with his wings while sucking.

The wound shows a round piece of the skin—often the whole thickness and with some flesh besides as once happened to myself—taken completely out, as if cut out with a knife.

At the house of a neighbor, where the children had been much tormented by the vampires, the family cat, which had become an expert mouser for such winged prey was allowed to remain in their room, and quickly assumed the duties of guardian. Every night as soon as the children lay down she took her post by their hammock and no vampire alighted there afterward, expecting at the instant for felt of its life.—From the Youth's Companion.

Soldier Balks Death Plot.

It seemed to J. A. Stote a civil war veteran, of Kemp, Tex., that a plot existed between a desperate lung trouble and the grave to cause his death. "I constructed a stubborn cold," he writes that developed a cough that stuck to me, in spite of all remedies, for years My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery which restored my health completely. I now weigh 178 pounds." Tariff on Lumber.

There is considerable said regarding the lumber Tariff. The people have been made to believe that the Tariff on lumber costs the consumer more for his lumber. As a matter of fact if the Tariff should be taken off lumber no farmer would buy a board a single dollar cheaper unless there should come a panic which would stop all building operations. At present the lumber supply from foreign countries comes chiefly from Canada. And the Canadians are on to their job. They have adopted regulations which prohibit the exporting of saw logs to the States to be manufactured. From 1904 to 1908 Canada sent into the United States more than three billion feet of manufactured lumber, valued at over sixty-four million dollars but not a saw log does she let come over. And now the same regulation is to be adopted in the item of pulp wood. The wood must be converted into paper in Canada. That country wants the whole thing. She wants our markets in which to sell her manufactured products, but she will not reciprocate. The reason why lumber would not be cheaper were the Tariff taken off is because this country is already taking the manufacturing capacity of Canada. Take the Tariff off and it would put just the amount of the Tariff reduction into increased prices of stumpage, crown dues, and increased profits to the manufacturer and dealer. A greatly increased product would of course tend to reduce price if the market should be glutted, but the increased product isn't to be had. In fact, the available supply in Canada is diminishing rapidly now. These things are easy to understand if any one desires the facts. It is the "Tariff revision downward yelper who does not know the first principles of the situation and is simply trying to befrog the people.—Bay City Mich. National Farmer.

Notice.

TO WHOM IT MAY CONCERN:—I am informed that in a number of precincts in Ohio county, the citizens are making efforts to have the stock question submitted at the coming November election. In order to save time and trouble, I take this method of informing such persons that under the law, I cannot order an election for this fall in any precinct where an election on the stock question was held in 1905. As the election fell on the seventh day of the month that year and will this year be held on the second day of the month, the four years will not have elapsed. The following section from the statute is quoted herewith to make the conditions plain:

"In any district, districts or county in which a vote is taken under this law, another vote shall not be taken until after the expiration of four years from the time the last vote was taken."

Respectfully,

DESERTED VILLAGE NOW RECLAIMED

Old Village Now Summer Resort With Eighty-Two Inhabitants.

In a gorge close down against the inner base of First Mountain David Felt in 1845 began an enterprise that years after gave New Jersey her deserted village. He owned a blank-book and stationery store in Brooklyn and another in New Orleans. To supply these with material, says the Travel Magazine, he built a factory in the bottom of the narrow gorge and at the bluff edge of the level above he placed for his employees several commodious houses whose back windows looked sheer down upon the factory, 20 feet below.

He told Thomas Stead that he had "two barrels of specie" to start with, and as land was cheap lumber abundant and his 600 or 700 acres of dressed stone at hand in the ruins of a powder mill dating from the war of 1812, he built spacious and well. Prosperity smiled upon the hidden village.

The civil war changed the course of life for the little community. New Orleans was cut off by the blockade, and David Felt despairing over the loss of business, sold out before the war was over. The place passed into unsympathetic hands, deteriorated as the inhabitants moved away, and in the early 70s was known the countryside over as the deserted village. The great waterwheel rotted down, the little stream that had furnished the power, being neglected slipped back into its old bed in the bottom of the gorge. The acres of farm land that lay broadly between the First and Second mountains were covered with weeds.

Only the shade trees profited by the neglect that was over all and grew into stately proportions. The natural beauty of the spot, coupled with the lure that attaches to a deserted village, drew to it the curious to gaze through the broken windows into the empty houses stroll through the great factories stripped of its machinery and silent and to eat picnic lunches under the noble trees on the unkept lawns.

To-day this is changed. It is a summering place for the fortunate. The creaking doors have been fixed, the buckling floors repaired, the scaling paint renewed, the overgrown lawns mowed, the broken windows mended and now, securely hidden in this quiet nook, there is a population of eight-two.

Army Deserter Caught.

The Owensboro Inquirer says: James W. Payne, a deserter from the United States army, was arrested here by Deputy Sheriff J. C. Harl in Teddy Moseley's saloon. Payne admitted that he was the man wanted and said that he was glad that Mr. Harl got him as he was considering giving himself up for he felt like he was being hunted at every step he took. Deputy Sheriff Harl had received a warrant for his arrest along with a picture of the deserter and an identification of him, from Fort Meyer, Wyoming, where he was stationed, before he deserted.

Payne was reared in the eastern part of the county and by this information they thought that he would finally come back to Daviess county. He stated after he was arrested that he had not been in town a day when arrested. He enlisted in February and deserted June 14.

He was lodged in jail awaiting orders from the military authorities. It is probable that he will be sent to Ft. Thomas. Deputy Sheriff Harl will receive a reward of \$50 for the capture of Payne.

Woman's Home Companion for September.

A big section of the unusually big number is devoted to fashions. Experts in Paris and famous tailors and milliners in the United States have, with Grace Margaret Gould's knowledge of the American woman's tastes, made the issue one that women will preserve for many months. Not only gowns, coats, hats and waists, but the important little things, shoes, hosiery, fabrics, trimmings, collures—all are exhaustively handled.

There are plenty of good stories in the issue for these last hot days—stories by Octave Thanet, Mrs. John Van Vorst, Katharine Holland Brown, Mary Heaton Vorse, and others, illu-

strated by such artists as James Montgomery Flagg and Alice Barber Stephens. Kate Douglas Wiggin's serial story of the Shakers, "Susanna and Sue," is also in this issue. For the theater-goer, Walter Prichard Eaton's article, "The Decent Stage," will prove a splendid guide, giving a list of the good, clean, successful plays that will appear outside of New York this fall.

In "Reluctant Parentage" Dr. Woods Hutchinson startles us with new ideas about the "Race Suicide" question. He shows all the aspects of this big problem and eventually proves that it isn't really a problem at all.

Marion Harland, in her pilgrimage through Europe has met "Little Boy Blue," and tells his sad little story.

William H. McElroy contributes a number of stories about Edward Everett Hale that have the charm, humor and sweetness that pervade every thing connected with Doctor Hale.

We hear constantly the cry that our daughters are being taken from home, but seldom a plan to bring them back. Katharine Eggleston's article in this issue suggests a plan and a good one.

There are a number of articles that should be cut out and pasted in scrap-books: "The Successful Aquarium," "How to Make Candle-Shakes," "Furniture Made at Home," "Small Fruits."

The children's department is even bigger than usual. There are many pages devoted to embroidery and other hand work. Fannie Merritt Farmer's cooking pages are full of new ideas, and all the other regular departments are as good as they always are.

QUICK'S LIVER & BLOOD PILLS

Will cleanse your liver and purify your blood and make you feel like a new man.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

DIFFERENCES ARE HARMONIZED

Equity Society Ratifies the Winchester Agreement.

Adopt Pooling Pledges and Fix Prices At Bowling Green Meeting.

Bowling Green, Ky., Aug. 20. The Tobacco Department of the American Society of Equity and the State Executive Board of the American Society of Equity, concluded their labors and adjourned at 5 o'clock this morning after being in session all night.

The meeting was successful and harmonized the differences between the Burley Society and the A. S. of E. by accepting and ratifying the peace propositions made by the Burley Society at Winchester last week. The proposition was submitted by wire by Congressman Cantrill, from George town, and it is said the agreement permits members of the Burley Society who are members of the Society of Equity to pool their tobacco with either organization they desire.

Officers were elected as follows: E. L. Davenport, Cincy, Ky., president; H. F. Ray, Indiana, vice president; H. S. Pirtle, Hancock, county, Kentucky, secretary.

At the meeting yesterday afternoon the constitution and by-laws were amended and a pooling pledge for the Equity members of the Burley district was submitted and adopted.

This pledge fixes the price of tobacco of average quality at 15 cents per pound unless two-thirds of the owners of the tobacco in the pool shall by vote otherwise provide. Every signer shall have the right to prize and store his own tobacco under reasonable conditions. The signer pledges himself to pay as liquidated damages a sum equal to 20 per cent of the value for any breach of the contract, and the provision is made that the pledge shall not be binding unless 70 per cent. of the crop is pledged on or before November 1.

It was provided that in other tobacco districts the district unions should be permitted to form their own contract.

The meeting was called to order by President E. L. Davenport, of the National Tobacco Growers' Association of the American Society of Equity. There was a good attendance of the tobacco growers from Kentucky, Indiana, Ohio with one from Wisconsin.

THE PLEDGE.

The pledge adopted by the tobacco department for the Burley growers is identical with the one now used by the American Society of Equity members in the Burley district and reads as follows:

We, the undersigned, for and in consideration of the benefits to be derived from having our tobacco handled and sold by the American Society of Equity tobacco growers' union, do hereby pledge to said union the number of acres of tobacco set opposite our names, grown during the season of 1909, which constitutes our entire crops, and do constitute it our agent for the purpose of receiving, grading, handling and selling the same on such terms as the said union

may prescribe in accordance with its charter and by-laws.

Provided, that the said union shall not sell or otherwise dispose of any of said tobacco for less than the minimum price of 15 cents per pound for an average crop in good order, except upon an affirmative vote of two-thirds of all persons voting who have tobacco pooled with this union after due notice.

Every person signing this contract shall have the right to prize and store his own tobacco, but it shall be stored in the county where it is pledged unless agreed to in writing.

For any breach of this contract by sale of my tobacco by me I hereby bind myself to pay as liquidated damages to said union a sum equal to 20 per cent. of the value at the time of sale of tobacco pledged by me.

Persons who sign this pledge shall not be bound thereby unless persons owning 70 per cent. of the Burley tobacco grown in the year 1909 sign the same on or before November 1, 1909, provided that upon a two-thirds affirmative vote of those voting who have signed this contract a pool may be declared, though less than 70 per cent. of the 1909 crop of Burley tobacco be pooled.

No officer or other person in any way connected with this union shall ever be paid a salary exceeding \$5,000 a year.

In the other districts each organized district was authorized to draft its own form of pledge.

Mrs. Christiana McDowell Dead.

Mrs. Christiana McDowell, 82 years of age, and wife of Patrick McDowell, died at her home in Youngstown, O., on Saturday, Aug. 14, 1909. She leaves a husband and twelve children—three daughters and nine sons. The latter are all known in steel mill circles, having had great success in that business. They occupy positions of much prominence in the industrial world.

Mrs. McDowell was born in Ireland, and was a sister of the late William and Isaac Foster, of this county. She was the mother of Robert McDowell, of Bellaire, O., who is well known in this county. Mrs. McDowell visited friends and relatives in Kentucky twenty-five years ago. All who knew her will regret to learn of her death.

WONDERFULLY FAMOUS OLD WAGON

Has Hauled as Much Money as
There is in all the
World.

People in Washington who daily pass the Treasury Building and see backed up to its curb an old van of wagon drawn by three patient, white horses, do not realize the intimate link that this conveyance bears to all the money there is. They are not aware that every piece of paper money that every individual in the United States has spent or hoarded in the past 26 years has first ridden in that wagon. They do not know that the sum of money this wagon has hauled is equal to all the money there is in the world to-day.

The old wagon is a great curiosity but modest withal. It plies regularly between the Bureau of Engraving and Printing and the Treasury, always, loaded down with rectangular packages of 12½ pounds each. In every package are 4,000 bills. If the bills are of the lower denomination the package is worth \$4,000. If of the highest, \$10,000, it is worth \$40,000,000. The package of this great value once rode in the wagon.

It would take a string of hay wagon 20 miles long to hold the money that has passed through this old van. If the packages were piled one on top of the other they would make a monument 15 miles high. If the bills were placed end to end the string would be 250,000 miles long, or equal to ten times the distance around the world. They would carpet a road 50 feet wide from New York to San Francisco. Their weight in coal would supply the average family with fuel for 250 years. Had an expert begun counting this money in the days of Columbus he would have been half through when Mr. Taft was inaugurated.

All these and many more stupendous facts might be cited with reference to the old money wagon. Yet it goes unnoticed in Washington, and not one citizen in a hundred realizes that any interest attaches to it. Few people in Kentucky ever saw Mammoth Cave, the native of Arizona has never taken the trouble to visit the Grand Canyon nor New York's Niagara. The gold of De Soto was always a little farther on. The land of one's desire is that to which he cannot possibly go. There are realms of romance without end, but no man ever confessed to living in one. It is human nature that the unreality of distance is the haze that makes all things interesting.

The Co-Operative Telephone Meeting

Which was held in Centertown last Friday was a great success in every particular. The town was well represented and everybody present took an active part in the proceedings. The Centertown Co-Operative District Telephone Company was organized and officers and directors elected. The number of subscribers enrolled was 33 and the subscription committees in the county have not yet been heard from, which will undoubtedly

swell the number to double or treble that already enrolled.

A meeting is set for next Saturday, Aug. 28th, at 1 p. m. Everybody interested is urged to be on hand at that meeting, as we want to organize as many local companies and lines as possible at that time.

If you are interested in an exchange being installed anywhere, have your local secretary to write to me, giving the wishes of your local in detail and the number interested in putting in telephones and I will arrange to meet you with other local companies at the central point where the board is to be installed, and myself and other members of the telephone company will lend you all the assistance we possibly can.

Let me again urge everybody who can to be present at Centertown next Saturday at 1 p. m. With best wishes I am,

Yours truly,

E. G. AUSTIN,

Dear little Golda how we miss you, Yet we know that God knew best. When he called you from our bosoms. To that land of perfect rest.

While our hearts and homes is sadder,

Your voice and footsteps we'll hear no more.

Yet we know that Heaven is sweeter, With your presence forevermore.

You were such a loving darling, You were the pride of our hearts and home;

'Twas so hard when an angel whispered,

"Dear little Golda God says come home."

Dearest darling how we miss you,

'Twas so hard to say good bye; Yet we hope to meet and greet you, In that Home beyond the sky.

The Bigness of Things.

To the American politician, we seem the greatest people because we have so many votes. The builder and contractor come to the same conclusion because we want so many town-houses and country places to contain us. Then there's the circumstance that there is a large balance of trade in our favor.—it is in our favor, isn't it? At any rate, it's large. Greatest we are in all things and not least in size. Lafcadio Hearn's marvelous description of New York ("a city walling up to the sky and roaring like the sea") depends for much of its effectiveness on bigness in numbers and money. "In that block on the right there dwell nine thousand souls; the tenants of the edifice facing it pay the annual rent of a million dollars. Seven millions scarcely covered the cost of those bulks over looking the square beyond,—and there are miles of such." The American is a bit proud that his railroads kill more persons annually than other people's railroads, and in Bert Harte's "How Santa Claus Came to Sandy Bar" the

You and I have a great deal of "pen-sive local pride," and that is as it should be. My complaint is that the pride is in our quantity of things, and their size individually—not in the things themselves. Thus the newspaper editor convinced that the

Some people are going to profit by reduction in duties but it will not be the fellow who buys things at retail.

Judge John M. Galloway, of Bowling Green is an announced candidate for Judge of the Court of Appeals on the Republican ticket next year.

Democratic papers continue to speak of "jokers" in the new tariff bill. If our Democratic friends were to enact a tariff measure it would be one HUGE JOKE.

It is given out that the food supply is running short in the Roosevelt African camp. It is a poor marksmen who cannot supply his own camp with meat.

We do not blame those Republicans in Calloway County for refusing to swallow a judicial ticket on which County Attorney Krone, of Lyon county, is running for Commonwealth Attorney.

It must be "gall and wormwood" to the tobacco trust to witness the harmony which now prevails among all the different tobacco organizations and the unanimity displayed in the effort to pool the 1909 crop.

A good way to determine whether Democratic free trade would be a good thing for the people will be to watch for the reduction of prices of boots and shoes, brought about by the placing of hides on the free list.

It is again announced that Uncle Joe Cannon is to be retired from Congress. This is the usual hot weather announcement on this subject. Of course when the time approaches for re-election "Uncle Joe" will be invincible.

In ten days more the Ohio County Fair will be on and thousands of visitors will come to our town, doubtless many who were never here before. Let us therefore finish cutting our weeds and gather up the rubbish all over the town and make it as inviting as possible.

It is said that the so called progressive Republican members of Congress have already begun a campaign in the middle west for still further reductions in the tariff, but their plan is to oppose a general reduction for at least another decade. They will content themselves with efforts to reduce certain schedules. In other words they propose to kill protection by police meal.

There should be no retrograde in the improvement already begun in Hartford. The City Council to be elected at the coming November election should be composed of men who will continue the good work until all of our streets have been macadamized and a good sewerage system installed. He who throws obstacles in the way of a sanitary sewerage system for the city of Hartford, is as much to blame for the spread of typhoid fever as if he had personally helped to scatter the germs.

Hon M. C. Rankin, present Commissioner of Agriculture, is making a splendid record as a working official. He has doubtless done more for the farmers of Kentucky than any man who ever held the position. Being

a practical farmer, he knows the needs of the agriculturists and through his untiring industry he is making his office what it was intended by the lawmakers, a sure enough aid to the most important class of our citizenship. Mr. Rankin is extremely popular all over the state and has been mentioned in many sections as a suitable candidate for governor two years hence.

With corporate influences that will be brought to bear to force his nomination, it now seems assured that W. E. Settle will be named by the Democrats for the Appellate Judgeship in this district. The district, which was until the recent gerrymander Republican by a safe majority is now a doubtful district and with the proper man, the Republicans can carry it. Judge Galloway, of Bowling Green, who has made an enviable record as Circuit Judge in the Warren district, we believe, will make a formidable opponent for Judge Settle. Coming as he does from the same city, he would divide the local pull with Judge Settle thus weakening him very greatly. With the people understanding that Settle is a corporation candidate it should not be difficult to rally forces sufficiently to insure his defeat in November 1910.

A banquet will be tendered by prominent Republicans from all over Kentucky at Louisville to Senator Bradley to-night. Senator Bradley has made a wonderful record during the special session of the Senate in his efforts to aid his constituents wherever and whenever their interests were affected through the new tariff measure. He commanded respect and consideration upon his very first appearance in the Senate, and it was through his efforts mainly that the revenue tax was removed from tobacco in the hands of the farmer, which it is thought will be a great aid to the tobacco growers in their fight against the trust. It is well to honor the Senator in this way, and it is hoped that all factions of the Republican party will be brought together and universal harmony prevail in our ranks throughout the state, as a result of this coming together of the clans.

An Unworthy Example.

The nonsensical vituperations against Senator Aldrich and Speaker Cannon by the Democrats and a few misguided Republicans is an example unworthy of the men and newspapers that utter them. The power of Aldrich and Cannon is such only as is delegated them by the members of their respective branches of Congress and is voluntary. But two grounds exist as far as the Tariff principle is concerned; men are either for a Protective Tariff or for a revenue Tariff. If for the former, a man is consistently a Republican, and if he is for the latter he is consistently a Democrat. There is no middle ground. The Republicans did not promise to reduce the Tariff as a whole; they promised revision. If the revision results in reducing the earnings of the Tariff, all is well; if the revision increases the earnings, all is well. If the people of the country want a revenue Tariff, they must get it by the act of Democrats. If Republicans want a revenue Tariff, they should join the Democratic party. The Republicans would be far better off by yielding the reins of government to the Democrats than to commit suicide by attempting to pilot their ship upon "Free-Trade" waters. There is an indication that certain Republicans have fallen into the theory that the Tariff is a local issue. No greater blunder was ever made; the Tariff is national in its scope and no man can be consistent and view it in any other sense. It matters not the locality of the product, a Protectionist must, to be consistent, vote to Protect it. The fight that is in progress will align men where they justly belong and the future will be cared for by the majority. A consistent voter will align himself with the party that represents what he believes and the technical name of the party will be the masthead of the organized effort.

Ohio County High School.

A noted American educator recently said: The people of this country will have just as good schools as they demand, and just as poor schools as they will put up with." The people of Kentucky have realized this fact and as a result are demanding better schools and more efficient teachers. A great educational wave has swept over the State and has left in its wake, not only a burning desire, but a firm determination to have better schools. Think of the great State of Kentucky once standing forty-second in point of education among her sister States! Is it any wonder that a whirlwind campaign for better schools is sweeping over every section of the State?

When the Legislature made the provision in its statute books whereby county high schools could be established in every county, a great step toward advancement was made. This year we present to the people of Ohio county a first-class high school equal to the best high school in towns of the same population, of any other State in the Union. We offer you a course that any university will accept without question, and one that will train any boy or girl for the active affairs of life. When school opens on August 30th a new era will be marked in the history of Ohio county's education. Your boy or girl can not afford to neglect this splendid opportunity, and upon the parents' shoulders rest the educational responsibilities. Let every boy and girl of high school age enter at the earliest possible moment. Our catalogue explains fully, the courses, expenses, etc. Board can be secured in private families for \$2.50 to \$3.00. Tuition free in the High School to Ohio county pupils holding common school diploma. Those who do not hold diplomas will be admitted by examination. High School' tuition to non-residents of the county \$5 per nine weeks. For full information address Geo. E. Bailey, Hartford, Ky.

Thieves entered the poultry house of Mrs. Amanda Barnett, near town, last Monday night and stole fifty-two chickens. The thief or thieves were travelling in a wagon and carried the chickens from the house to the wagon in a sack. In their haste or by accident they dropped one of the sacks in the henhouse. It had one chicken in it. The sack had no mark on it by which it could be identified, other than it was almost covered with patches. The thievery was not discovered until next morning.

Mr. William King and family are the guests of Dr. and Mrs. E. B. Pendleton. Mr. King is an old Hartford boy who has been living in Birmingham Alabama for a number of years, but is soon to become a resident of Louisville. His visit to Hartford has been very much enjoyed by his many old friends and they are glad he is going to return with his interesting family to old Kentucky.

The graded school election held at McHenry last Saturday resulted in favor of the establishment of a graded school district. The common school districts of McHenry, Render and Williams are included in the new graded school. It will have the largest number of pupils of any graded school in the county, having at this time about 430 pupils. Messrs. S. J. Tichenor, W. C. Smith, Andrew Thorpe, L. Frances and M. M. Bardwell were elected trustees. The school will not begin its existence as a graded school until next year, the public schools having already been organized and some of them begun.

An accident which happened at Bean Bros., saw mill just below town last Wednesday did considerable damage to the machinery and it was a miracle that none of the employees were hurt. The trouble was caused by the breaking of the belt on the governors which allowed the engine to run away at such a high rate of speed that it caused the explosion of several pulleys and the destruction of the belt on the drive wheel. A piece of the machinery was hurled through the roof making a hole large enough for a man's body to pass through. It happened that no one of the employees was in line with the big belt or any of the shafting which was broken up or serious injury and possibly several lives would have been lost.

The Contest Over the Payne Bill.

SENATOR WARREN.

IN securing the report to both houses of congress of a tariff bill containing many important reductions from present schedules of customs duties the Taft administration is considered to have scored a notable victory. President Taft stood out for placing on the free list certain raw materials largely used in manufacture, and in bringing the conferees pretty near to his point of view on this subject and in securing important reductions in the duties placed on some other articles entering largely into general consumption he is credited with having carried out a considerable part of his program.

The five items which the president desired especially to have on the free list were hides, oil, coal, lumber and iron ore. He was not allowed to have his way on all of these items, but secured the placing of some on the free list and the reduction of duties from senate rates on others. The fight in the conference room was chiefly over hides, lumber, coal and iron ore. Oil was admitted from the first to be a proper subject for the free list in view of the strong sentiment in both houses in favor of such a plan. The proposal to place coal on the free list and perhaps iron ore aroused Senator Elkins of West Virginia in particular, and it was owing in part to his influence that a small duty was placed upon such in the conference report. The controversy over hides was the most

SENATOR NELSON W. ALDRICH.

stubbornly fought of all, the opposition in the senate to this part of the administration program being especially strong. The anti free hides men included the senators from a number of the cattle growing states of the west like Wyoming, Idaho, Montana, Utah and the Dakotas. To overcome the opposition of this element proved a difficult task, and it was in the effort to do this that the proposal was made to offset the placing of hides on the free list by making proportionate reductions in the duties on leather manufactures, particularly boots and shoes and harnesses.

Senator Aldrich informed senators from northwestern states that he would not consent to the abolition of the duty on hides unless there was a material cut in the rates on boots and shoes and other leather goods. In no other way, he said, could he get the votes necessary for the adoption of the report in the senate if it carried free hides. Senators from cattle raising states insisted that the only way consumers can get any benefits from the removal of protection on hides would be by corresponding reductions in the duties on boots and shoes and harnesses.

The discussion over the hides schedule has aroused some warm blood, and there have been many varying statements about the effect of a duty on hides. Advocates of making them free claimed that the beef packers are engaging largely in the tanning business and that a duty on hides would virtually give them a monopoly on the article and result in large increases in prices of manufactured leather products. Senator Francis E. Warren of Wyoming, who has been a leader among the anti free raw material senators, maintained that the facts did not bear out such an assumption. He cited figures purporting to show that the three largest packers in the United States tan annually 1,363,000 hides, this number constituting only 7 per cent of the entire domestic consumption. He denied that the beef packers could control the leather market.

As soon as the Republican conferees reached an agreement on schedules the completed and corrected tariff bill was sent to the public printer to put in shape for the use of the conferees.

Then followed the reporting of the bill to the senate and house of representatives and the beginning of the debate upon its adoption.

Previous to this both houses adopted the concurrent resolution directing the president to forward to the respective states the proposed income tax amendment to the United States constitution. If thirty-five states ratify the income tax amendment it will make possible a national tax on all incomes, from whatever source derived, including the incomes of absentee Americans.

BARS ON SHEEP

Modified by Department—Car- goes in Transit Can Be Unloaded.

Washington, Aug. 23.—The quarantine recently declared by the United States Department of Agriculture on the State of Kentucky on account of the disease known as "scabies" in sheep has been modified so as to permit the re-forwarding in inter-state commerce of shipments from other States of sheep that are free from "scabies" and from exposure thereto, and that in transit through Kentucky are unloaded at points in that State, provided such unloading shall be into pens or yards which have been specially cleaned and disinfected for the purpose, under the supervision of an employee of the Bureau of Animal Industry and which have been specially designated and approved for that purpose by the chief of the Bureau of Animal Industry.

The quarantine has also been modified so as to permit the interstate shipment of sheep of States not quarantined for "scabies," which are exhibited at the Kentucky State Fair to be held at Louisville September 13 to 18, subject to the following restrictions:

Such sheep shall be shipped by rail to Louisville and shall not be unloaded in the area quarantined for "scabies" elsewhere than at Louisville. Separate cleaned and disinfected chutes and other facilities shall be provided for the exclusive unloading and loading of such sheep at Louisville. Such sheep shall be hauled in cleaned and disinfected wagons direct from the cars in which they arrive at Louisville direct to the fair grounds, and from the fair grounds direct to the cars in which they are to be reshipped.

That portion of the fair grounds or other premises to be occupied exclusively by such sheep shall be cleaned and disinfected under the supervision of an employee of the Bureau of Animal Industry before said sheep are placed therein.

Such sheep shall not be moved interstate from Louisville except in cleaned and disinfected cars, nor unless accompanied by a certificate issued by an inspector of the Bureau of Animal Industry showing that the sheep have had no opportunity to become infected with "scabies."

The Secret of Long Life.

A French scientist has discovered one secret of long life. His method deals with the blood. But long ago millions of Americans had proved Electric Bitters prolongs life and makes it worth living. It purifies, enriches and vitalizes the blood, rebuilds wasted nerve cells, imparts life and tone to the entire system. Its a godsend to weak, sick and debilitated people. "Kidney trouble had blighted my life for months," writes W. M. Sherman, of Cushing, Me., "but Electric Bitters cured me entirely." Only 50c at all druggists.

Farmers' Co-Operative Exchange to be Installed at Centertown.

Centertown extends a hearty welcome to all the people in the surrounding vicinity to co-operate with us in our telephone enterprise. We feel very much indebted to our friends in the south end of Ohio county for giving us a co-operative plan. By this it is possible for every farmer although he may live in the remotest districts and possess but little ready cash, to have a telephone installed in his house.

Arrangements have been made for installing a nice one-hundred-drop board at Rockport. The Prentiss people are thinking of moving their exchange to Beaver Dam in the near future. The south end of Ohio county will then be lined up solidly to Hartford. What do you say, Hartford? Are you going to give us the same hearty welcome that other places have given with our system. Centertown has us? If you will, we will be glad to move into your town and connect you organized with about 38 members and we are wanting to reach Hartford.

ENTRIES AND EXHIBITS.

Exhibition and Classification of the Kentucky State Fair.

Entries and exhibits of all livestock departments except for horses, mules and jack stock will close Monday, Sept. 6th, at 6:00 p. m., and all other departments prior to Friday, Sept. 10. Entries of horses, mules and jack stock will close positively at 12 o'clock noon the day before the exhibition. There will be a printed program of the entries of horses, jack stock and cattle, together with the name of the owner, name and color of the animal and number of the entry, which must correspond with the number worn by the person in charge of the animal. It is absolutely essential that this information accompany the entry, which must be filed with the secretary before the closing date. Exhibits must be placed by 9 o'clock Monday morning, Sept. 13th, and all exhibitors will be so notified. There are 1,400 different rings in which prizes are offered, and there is a total of over 300 lots.

The horse classification is subdivided into classes suitable for light harness, five-gaited saddle-horses, roadsters, combined harness and five-gaited horses, American carriage horses, three-gaited saddle-horses, combination horses, plantation saddle-horses, high stepping and runabout classes, Shetland ponies and fine horses.

Good premiums are given for both mules and jack stock.

In the beef cattle department, Short-horns, Herefords, Polled Durhams, Aberdeen-Angus and Red Polls are given most liberal classifications. In the Dairy Cattle Department, Jerseys, Holstein-Friesians, Guernseys and Ayrshires are recognized. The swine department includes Berkshire, Poland Chinas, Duroc Jerseys, Chester Whites, Tamworths, Hampshire and Yorkshires. In the sheep department prizes are offered for the following breeds: Shropshires, Southdowns, Oxford, Hampshires, Cotswolds, Dorsets, American Merinos, Delaine Merinos, Ramboulllets, Lincolns, Cheviots and also a class for Angora goats.

The poultry department covers every known standard variety. The same is true of the pigeon department, the prize money for these departments being much larger than last year. The department for vegetables and melons, field seed and grain and tobacco contains classes for almost every product grown on the farm. In horticulture there are over 700 prizes offered for apples, peaches, pears, grapes and miscellaneous fruits. Plants and flowers, one of the most beautiful and attractive exhibits of the State Fair, will be well taken care of this year and will be placed alongside of the women's department. In no department is there a more interesting collection of premiums than in that set aside for woman's work, children's work and table luxuries.

FINE DAIRY STOCK.

Holstein-Friesians at the Kentucky State Fair.

The Holstein-Friesian has long been known to Kentuckians as a great milk producer, but there has been no concerted action among the breeders of this dairy cow in Kentucky. The fact that the three hospitals for the insane and the state feeble-minded institute at Frankfort have decided to use this breed altogether in their dairies, requiring six or seven hundred cows, is a great stimulus to the breed in Kentucky.

The \$350 donated to the Kentucky State Fair by the Holstein-Friesian Association is in great measure due to Stanley Milward, a member of the board of control for these institutions, and a recognition on the part of the Holstein-Friesian Association of the value such a move would be to this breed of cattle in the state. The asylums will have on exhibition at the Kentucky State Fair some of the best specimens of the black and white dairy cows to be found in the country.

Students' Judging Contest.

Commissioner M. C. Rankin has offered two sets of prizes for farmer boys in this state and for the students in the Agricultural College. The amount for farmer boys is \$100, to be awarded to the young man who makes the largest score in judging livestock at the State Fair. This money to be used as scholarship to the Agricultural Department of the State University, the contestant to be required to file written opinion, with reasons therefor, on horses, cattle, swine and sheep exhibits. The prize for students' judging contest amounts to \$50, to be divided into \$20, \$15, \$10 and \$5. Competition will be limited to students in the State University. It is the purpose of the commissioner in offering these specials to educate the young men of the state in livestock judging. The requirements are quite liberal, and there is no reason why any bright young man in the state should not enter the contest.

The Louisville public schools will for the first time have an exhibit of the work done in the various grades upon the State Fair grounds this year during the week of Sept. 13-18. The Kentucky State Fair is getting to be more and more an educational institution, and it is hoped before many years to have a great display of the work done in the various schools of the commonwealth.

AN ENERGETIC FORCE.

The Organization of the Kentucky State Fair Work.

Few realize the amount of labor and the amount of organization that it takes to put on a State Fair. On September 13th at Louisville will be opened the seventh annual Kentucky State Fair. Visitors will find on exhibition the best specimens of practically every product of the state. To collect these exhibits and to systemize them so as to have everything ready for inspection and to operate the same for six days, costs about \$50,000. First comes the secretary, who is charged with the responsibility of getting everything in readiness together with a large clerical force, then the heads of each department, which is always some member of the State Board of Agriculture, with superintendents and assistants sufficient to look after each exhibit; a force of watchmen, guards, ticket sellers and takers, laborers, etc., until if the whole force were gathered together it would represent a good-sized army. Each person is adapted to handle his particular work, and no more system is required in any great industrial plant than in an exhibition of such magnitude. It was through this thoroughly organized force that all the details of last year's fair were worked out in such an incredibly short time. And the energy displayed by such a force is one of the interesting things to be noted at a state fair.

A FINE OUTING.

Tenting on the Kentucky State Fair Grounds.

Arrangements have been made for those who want to take a week's outing to have their own tent upon the State Fair grounds. Persons desiring a tent should write to Secretary Newman of Louisville, Ky., and notify him, and tents can be secured and furnished to visitors at actual cost. Many persons have an idea that they can take in the entire fair in one day, when in fact six days can be very profitably spent in studying the various exhibits that will be upon the grounds. Many for the first time visiting the State Fair for one day, leave with the determination to come again the next year and spend several days and make their arrangements accordingly.

ADVANTAGE TO FARMERS.

Equity and Grange Headquarters at the Kentucky State Fair.

The Kentucky State Fair management for the week of Sept. 13-18 has provided a tent to be known as Equity Headquarters, and also one to be known as Grange Headquarters, for the use of members of these organizations, free of cost. It is to be hoped the farmers will make use of the accommodations provided for them and feel perfectly at home during the fair week.

Pain's Fireworks at the State Fair.

The State Fair will again have Pain's Fireworks as a night attraction. Novelties in fireworks not heretofore seen will be introduced and a magnificent display of forty numbers will be given each night, including such devices as "The Weir White Falls" on a gigantic scale, 200 feet long and 25 feet high. Also, a wonderful device known as "Fighting the Flames," showing a house burning, with the fire engine playing water upon the flames, all done in fireworks. Monster portraits of well-known people. The Pain company will also put on a wonderful new device known as "The Pillar of Light," showing a pillar of fire of intense brilliancy rising fifty feet in the air, making the entire surroundings as bright as day.

In connection with the fireworks there will be provided entertainment by noted specialty artists, and a big concert each night by the band, making a most charming evening and one long to be remembered.

Tobacco at the State Fair.

A most liberal premium list is offered for tobacco and a large and valuable exhibit is expected. Classes are provided for the following Burley types: Red Leaf, Bright Leaf, Cigarette Wrapper and Bright Trash. The dark types are Black Wrapper, Long or African Leaf, French Leaf, Italian Leaf, Green River Leaf and Stemming Leaf. In addition to the regular prizes, Hon. M. C. Rankin offers \$75 in specials for the best display of Burley crop, best display of Dark Tobacco and the best display of Green River Tobacco. Not more than four samples can be entered of a single crop, but if exhibitor has more than one crop raised on his farm he is entitled to four samples out of each crop.

Horse Show at the State Fair.

At every fair, whether big or little, in Kentucky, the horse show is one of the predominant features, and the Kentucky State Fair of 1909 will be no exception. With one of the most attractive classifications ever offered at a Southern fair, with high class judges to tie the ribbons and the best covered show arena in the world, there should be horses enough and of choice quality at this show. As the horse exhibit can usually be depended upon to take care of itself, it is believed that with the addition of the night show feature an unusual array of equine celebrities will be paraded before the public.

MINIATURE MAP ON HENS EGG

Told Just Where Treasure Buried Years Ago Could Be Found.

Ezra Burt, who lives about a mile east of the Corners, has a hen which no amount of money will buy, the New York World says. It is a scrawny, ill appearing fowl, with bedraggled feathers and a sallow head, and, what is more, it has laid only one egg in its entire two years' existence. Still, old Betsy as the hen is called has a niche in Ezra's heart and gets the very best grain the farm affords.

The secret of all this is that the one egg Betsy laid contained on its shell a raised water-line map of the spot where old Jeremiah Burt, Ezra's great-grandfather buried his gold at the time of the revolutionary war, and with the aid of this map Ezra recovered the treasure. Just how much this was no one has been able to find out but is known that the mortgage on the farm has been paid off and the Burt family is living in comfort.

The Burt family gave up hunting for the secreted wealth forty years ago, after they had searched and dug until they were tired out. They knew that the paternal Burt sunk his gold somewhere in the earth and went off to war with out telling his family where he had placed it, further than that it was on the farm.

Last summer a gypsy came along selling beads and laces and offered to go into a trance and solve the treasure riddle provided Ezra bought a dollar's worth of her wares. Burt took up the offer, and in her trance the woman said that some day an old scrawny hen would lay an egg on which would be found a map. If this were followed the treasure would be found. Ezra thought he was "stung" but he paid the dollar.

Nothing more happened until a month ago, when Betsy was found in the woodbox behind the kitchen stove. Horrified at the idea of having a hen in her kitchen, Mrs. Burt schooled her out, and was surprised to find an egg nestling in the shavings. The egg had peculiar raised lines on the

shell and Ezra was called. He remembered the prophecy of the gypsy, and carefully studied the shell. Sure enough there was a map, with a little star at the base of an old maple tree in the sugar orchard.

With a pick and shovel Burt set forth and an hour later returned with a discolored copper soap kettle, heavy with gold. The family kept the secret until the mortgage was paid, when it became common property. All efforts to get Ezra to tell how much money he found in the kettle have failed.

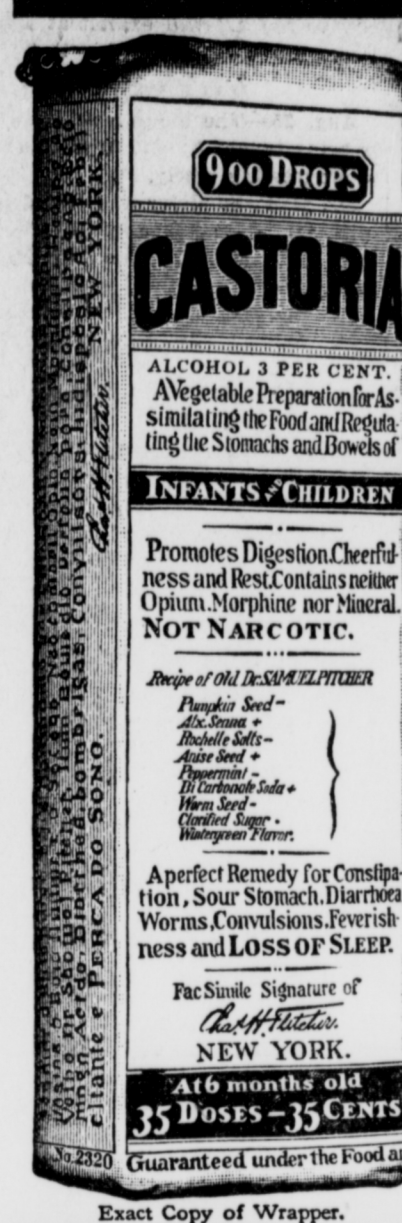

MEN-DEN-HALL'S CHILL TONIC

Best for Malaria, Chills and Fever. Guaranteed.

Means Dear Meat.

Illustrating a fallacy that free hides will benefit the United States, Ezra C. Williams, of Orange, writes to the "Tribune," showing that it means dear meat. The hides that come in free are taken from cattle in South America and other points, from which no meat is exported. In fact, we get the hides and lose the meat. The duty on hides was an incentive for the Eastern man to begin his old occupation of raising cattle which the Western man has usurped because of cheaper feed and grazing grounds. We do not believe that free hides will reduce the price of shoes one cent a pair, but on the contrary, will have a tendency to maintain meat prices.—Newton N. J. Register.

JOHN ROBINSON'S CIRCUS COMING

The Oldest and One of the Very
Best Shows on the
Road.

The Shamokin, Pa., Daily News of
June 14, 1909, says:

"The street parade was perhaps the
biggest, brightest and best that ever
passed through the streets of Sha-
mokin. The horses were fat and sleek
some great big one and some little
tiny ones and all to be admired. Three
music and the gold decorated wagons
and dazzling costumes of the per-
formers, the big herds of elephants
and camels all went to make the
pageant a delight to every one of the
hundreds of happy spectators.

"A large audience attended this af-
ternoon's performance and came away
delighted with the entertainment.
There is an abundance of merry mak-
ing clowns, while each and every act
is worthy of individual commendation
some being of such novel and extraor-
dinary character as to deserve special
mention, among which are the riding
seals. These wonderful aquatic crea-
tures perform a series of marvelous
acts. They actually ride on bareback
horses, play ball, juggle and ballant
various objects while riding on the
backs of fleet horses. This may seem
incredible yet nevertheless may be
witnessed at each performance.

"Another act that deserves more than
passing comment is that of the Ameri-
can Hercules. The strong man, War-
ren Lincoln Travis whose phenomenal
feats, showing the wonderful muscular
power of the human frame, both aston-
ish and amaze the beholders. The
elephants which dance, waltz and per-
form various feats subject to the
master mind of their trainer were pro-
nounced to be the best performing herd
ever seen in this section. An admir-
able feature was the six horse act.
The riding, driving and managing of
six horses by Gordon Orton is a most
wonderful display of equestrian daring.
In fact, every act presented was of the
highest order of excellence and skill
after its kind.

"The menagerie was one of the large-
est and most comprehensive in its
make-up ever brought into this section.
Taken as a whole, it is recognized
as one of the greatest shows that has

ever visited the state and such is the
unanimous verdict heard from many of
the thousands who flocked into the
city to see it." will exhibit at Beaver
Dam Wednesday September 8.

Here's Something Very Interesting To Every Lady in the Land.

A New Department Has Been Added to Our Mammoth
Collection of General Merchandise

LADIES' COAT SUITS.

In opening up this new department, we fully sustain
the established reputation of this store, "Never to do
anything by halves." And to give the trade an opportu-
nity to secure the very best the market affords in style,
material and workmanship, we place at your disposal
the famous Palmer garments. This line of ladies' ready-
to wear, stands at the head of the list of the garment
manufacturers of this country and we want to impress
upon you right here, that no retailer anywhere can give
you better suits from any standpoint, than you can find
right here. We know "from the reputation of this con-
cern and from the experience we have had with the line
at our other two stores" that the purchase of our suits
means a regular customer for the line. In order that
everybody might have an opportunity to see the line
and compare with other lines before the actual demand
begins, we have the line on exhibition now, and to say we
are anxious to show you the line feebly expresses our
feelings in the matter. We invite you and everybody
else to visit our store and look at our MAGNIFICENT
DISPLAY OF LADIES' NEW COAT SUITS.
